1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Barry Haley on December 12, 2006.

The application has been amended as follows:

In claim 20, lines 1-2, change "including a means for determining if said breathing air sample passes certain breathing air purity requirements" to --further--.

2. The following is an examiner's statement of reasons for allowance: The claims are now clearly limited to a "user air source used to supply SCUBA and emergency air tanks," and therefore define over Sunshine and Banet in that neither reference specifies the instant application. Sunshine applies to ambient, medical or product testing, but does not include, e.g., the third party certification of SCUBA or emergency air tanks, whereas Banet includes third party certification, but does not teach or suggest certification in SCUBA or emergency air tank applications.

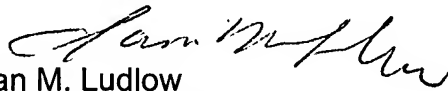

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
